Vikings Travel To Pellston Friday Night To Meet Hornets

The Grayling Vikings were to travel to Pellston this Friday night for another Northern Class C Conference game after dropping the Mancelona Ironmen here last Friday night by a 56 to 48 score. Pellston appears to be a weak opponent this year as they were almost swamped last Friday night by the Charlevoix Raiders 54 to 16. Grayling who turned in a fine brand of ball against a good Mancelona team, should have no trouble with the Hornets providing they continue the same good team play. In other conference action last Friday night, Boyne City defeated Harbor Springs and East Jordan downed the Gaylord Blue Devils in close contests.

This Friday night, East Jordan will host Boyne City, Harbor Springs will entertain Gaylord and Mancelona will have Charlevoix invading the Ironmen's floor.

Eagles Travel To Ellsworth Friday Night

The Frederic Eagles travel to Ellsworth Friday night for a Snow and Class D Conference game. On Wednesday of this week, the Frederic team, led by the Junior High team will travel to Ellsworth also for a pair of games.

Last Friday night, the Eagles entertained the McBain Christian team on the Frederic floor. The Eagles came up with a clutch win by a 34 to 23 score. The Frederic team got off to a 16 to 9 first period but fell behind 26 to 35 at halftime. In the third quarter, the Eagles came up with a big 16 to 9 score to tie the game at 35 to 35. They were outscored in the final period but managed to hold on for a one point victory.

The little Eagles scored with 18, Hoffman ended 10, Thompson 8, Pratt 8, Mertes 4, Gabriel 4 and Wilson 2. Smith turned in a fine job of rebounding in the final minutes to control the ball and hold on to the slim victory.

In the opening game of the season last Tuesday night at Merritt, Frederic moved out to a 6 to 2 lead but closed off and the hosts grabbed a 12 to 7 first period edge. In the final half, Merritt added another 15 points to Frederic's 20 to win 33 to 30. The small Merritt gym seemed to hamper the Eagles. They had trouble feeding Smith, who was moving what shots he had and missing.

Redman hit for 9, Gabriel 8, Wilson 6, Pratt, Mertes and Smith 2 each and Thompson 1.

The little Eagles also have split their first two games, losing to the Merritt Jayvees but losing to McBain Christian. On Tuesday night, they came up with a 59 to 21 victory with Barber, Armstrong and Midkiff leading the way with 14 points each. On Friday night at home the Eagles lost a tough 28 to 26. Bob Barber was top scorer for Frederic with 10 points.

AuSable Motel On Duncan Hines List

Ithaca, N. Y. — AuSable Motel in Grayling, Michigan, will receive national recognition in the 1931 edition of the Duncan Hines Travel Book "Lodging for a Night" coming out this month, according to an announcement from Roy H. Park, editor-in-chief of the Duncan Hines Institute here, publisher of the travel books.

AuSable Motel is one of 4,800 lodging places in North America recommended by Duncan Hines. Other Duncan Hines books are the companion travel books, "Adventures in Good Eating," also just published in its 1931 edition; and the Duncan Hines guide to resorts and vacation spots, "Vacation Guide," now in preparation for publication in February, 1931.

Les Hunter To Guide M.O.D.

Leslie Hunter, owner and operator of Hunter's AuSable Motel, has again accepted the chairmanship of the March of Dimes, according to the local National Foundation, executive committee. Mr. Hunter will guide the fate of the third March of Dimes to be conducted under the new health organization which has replaced the long successful National Foundation for Infantile Paralysis, the objective of which was to aid the victims and find a means for controlling the disease.

With the discovery of the Salk vaccine, the efforts of the huge forces of workers and medical personnel have been directed toward new objectives. In July 1928 a new organization was born, "The National Foundation" which took on new responsibilities.

High on the list of health problems this new group faces are the genital malformations of the central nervous system. The National Foundation will continue in the field—also, plus other diseases, arthritis, and other birth defects. One does not have to look far in any community to realize what a vast task this can be. 30,000 children are victims of rheumatoid arthritis alone each year. One child out of sixteen born each year has a significant birth defect. It is this group—up to age 18 at present—that will receive aid in much the same manner as Polio victims did in the past.

It is well worth repeating, said Mr. Hunter, that the funds raised during the annual March of Dimes go almost entirely for direct assistance to patients; to education of medical personnel; to medical research and to rehabilitation of patients.

Crawford County, in the past decade, has remained high on the list of counties which have received aid. At the same time, this county has always contributed its share toward the needs of the organization, and one year led the entire state in per capita contributions.

Chairman Hunter in making his acceptance of the 1931 March of Dimes chairmanship, praised the work of past leaders when he said, "I can see by the records that men like Carroll Ward, Neil O. Brown and women like Ella Wilcox and Mary Welch have built up a momentum in the March of Dimes that I hope to continue. To ward this objective, I request the assistance of everyone in the county toward an even bigger drive for the new and bigger objectives we have accepted."

Hotel Closed For Remodeling

The Hotel Shoppenagons closed last Sunday afternoon for extensive remodeling. Plans call for everything to be larger, including the dining room, lobby, the new kitchen, new offices and new coffee shop, rest rooms, and each hotel room to have its own private bathroom. The unused twelve-foot space between the north wall and the Blue Room is being incorporated into the building, so that the north wall is in fact to adjoin the Blue Room wall. The floor for new section of the building has been poured, and will be roofed over this week. The remodeling is being done by the staff of the hotel, the Hotel Shoppenagons, owner, Roy DeWitt, is also the Hotel owner. Plans now are for reopening the hotel next spring.

The present Blue Room will remain open for business during the time that the hotel is closed for remodeling and re-arrangement.

They hope their strayed animals will reappear on their front porch.

Don't forget to take steps to the El Cid shop for repairs. Be come steady child.

DEER KILL WAY DOWN

LANSING — Michigan's deer kill totaled 73,880 whitetails during the November 15-30 firearm season this fall, according to a preliminary Conservation Department estimate.

The estimate, based on traffic counts, observations at roadside checking stations and other field surveys, is far below last year's harvest of 115,000 deer and represents the first drop in kill since 1954.

Disappointing as the kill was, however, it could top hunter take for each of the seasons from 1954 through 1957. Whether it will or not, depends upon last-minute findings which are still needed to set the final estimate.

This year's buck kill for the upper and northern lower peninsulas was estimated at 45,550, down about 25 percent from 1955 and the 10-year average. The antlerless take in this part of the state ranged between 25,000 and 30,000, a decline of about 40 percent from last season.

Hunters in the southern half of the lower peninsula reportedly approached their 1955 buck harvest of 3,500, a decline of about 1-8 "any deer" season in Allegan County will have little bearing on the state's antlerless kill.

Department field men reported the kill was down from last year in many areas above the Straits which have had no antlerless seasons since 1921. In northern lower peninsula areas where there has been no antlerless season for the last five years, and in many sectors of the "club country" open only to buck hunting.

A survey of 26 clubs in Gaylord and Mio districts showed that 478 hunters took 1,150 special-December Last season, 504 hunters killed 347 bucks on these same club lands.

Game men attribute part of the kill's drop to the weather, particularly on opening day when about 33 percent of the season's buck take is normally recorded. Field checks indicate that fog and drizzling rains on the opener cut down the hunters' time in the woods by about 50 percent. Lack of snow allowed deer to stay put and squelched any hopes of tracking that hunters may have had.

Although weather was a big factor, it wasn't the whole story. Field studies show that deer were down.

Department estimates of the deer population this year were thrown off beam by heavier-than-normal winter and spring fawn losses. The embryonic deer fall average fawn crop this spring. However, an above-normal number of fawns were lost from those which were emancipated by winter and its food shortages.

Checks at biological checking stations also have driven home the fact that the severe winter of 1956-57 hit the fawn crop that following spring harder than the Department game men had anticipated. Pointing this out was a marked drop in 18-month-old bucks which generally make up a large percentage of each year's harvest. The biggest drop occurred in sectors of the herd's range where overbrowsing and food shortages have been most acute and prolonged.

Release Final 1960 Census County Totals

The final figures of the 1960 census for Crawford County and its division were released last Saturday by the United States Department of Commerce.

"BEWARE OF THE CHAIN THAT BINDS"

By Paul L. Adams
State Attorney General

The "chain referral plan" chains more people to a contract they can ill afford to pay than almost any other con-man device. This gimmick is used by door-to-door salesmen, selling vacuum cleaners, carpeting, siding, record-making machines and many other articles. These fast talkers would have you believe that you and you alone can get your purchase for free because of the bonus you will receive for each prospect you recommend.

You can't win on this deal. First, because there are only so many people in the community who need the product being sold. The salesman makes the same pitch to each person he sells to. It doesn't take long to clean out all the prospects. You end up paying the top price for whatever you have purchased. Second, even if you do furnish some prospects, the price for the product is usually so much higher than the normal one that the seller can afford to give you a part of the purchase price back and still make a big profit. If you doubt this statement, take time to check what a similar item would cost at a local store. No matter what a salesman tells you, you will NOT get something for nothing. Your best bet is to patronize local reputable merchants. They will be in business long after the gimmick boys are gone.

Grayling Mayor Attends Am. Municipal Congress

With the adoption of resolutions which became the National Municipal Policy for 1961, more than 1,000 delegates to the American Municipal Congress brought to a close five days of action-packed sessions which began Saturday, November 26th at the Waldorf Astoria in New York.

Among those attending from Michigan was Grayling Mayor Don Gothro and Mrs. Gothro. Mayor Gothro served as president of the Michigan Municipal League during the past year. They returned to Grayling on Thursday evening.

On Saturday, virtually all of the delegates from the assembled cities participated in the initial shaping of the Municipal Policy which was hammered out in working committee sessions on Airports; Area Assistance; Atomic Energy; Civil Defense; Highways; Intergovernmental Relations; International Municipal Cooperation; Metropolitan Areas; Municipal Employee Relations; Municipal Public Relations; Park; Public Health; Taxation; Tr

ban Renewal; Water Resources. Monday morning the sessions began working out the theme of the conference, the Municipal Balance Sheet, Balancing Urban Needs and Financial Resources, with two keynote addresses. Speaking on the "Urban Needs" side of the picture was Governor David L. Lawrence of Pennsylvania, while Dean Harland Cleveland, of the Maxwell Graduate School of Citizenship and Public Affairs, Syracuse University, spoke of the revenue side of the picture.

Monday afternoon the delegates were given a first-hand briefing on the history or customs of the United States by Ambassador James J. Wadsworth. In the Monday afternoon all delegates participated in a series of panel sessions by population groups relating the theme of the conference to their own cities' requirements. Separate sessions were conducted with cities below 10,000; 10-50,000; 50,000-250,000; and above 250,000 population.

Tuesday afternoon the delegates heard a report on "The White House Looks at Urban Problems" by Robert B. Marriam, Deputy Assistant to the President, and then sat in on consulting sessions with government officials from all of the federal agencies with municipal problems.

High School Spanish Class Enjoys Dinner

The Spanish class of Grayling High School enjoyed a Spanish dinner Thursday, December 1st. It was held at the high school gym. The dinner was a project of Mrs. Dan Babbitt, who has been attending the Spanish class at the high school.

During the past 3 months, each of the students has worked on a project which was something he was interested in. Many did papers on the history or customs of the Spanish speaking countries; some dressed dolls in typical costume; some collected recipes; some made maps or drawings. These projects were on display the evening of our dinner.

The dinner consisted of six courses, each served by the students in the class. The menu was as follows: First, scrambled eggs; 2nd, chicken soup; 3rd, sardines; 4th, chicken and rice; 5th, corn; 6th, dessert, which was prepared by Mrs. Stripe. Mrs. Tony Gross also helped with serving the dinner.

The table was set with small napkin holders in front of each place with the students' Spanish names on them. There were small menus below the holders which were in Spanish also.

After the dinner Rev. Doty showed slides of the archeological findings in Mexico and Peru.

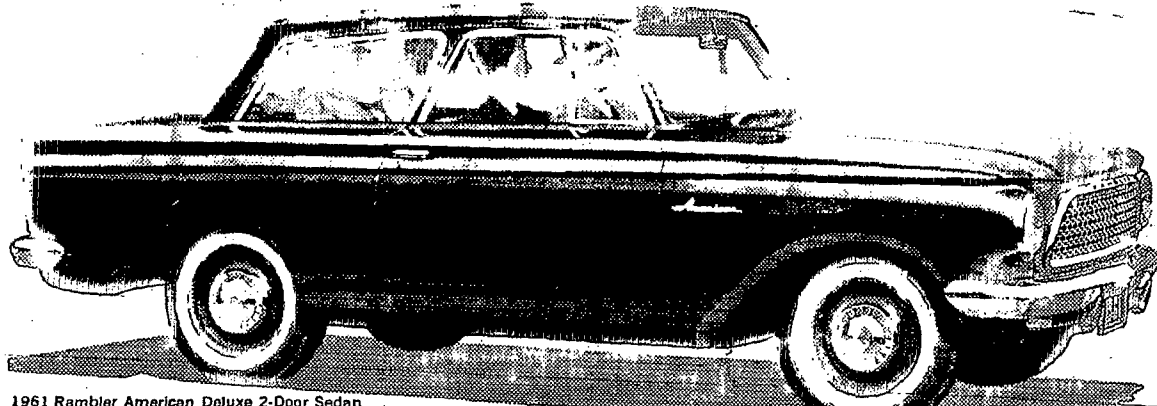

The following students are in the class: Rita Skinner, Sharon Williams, Carole Gross, Ginger Pratt, Toni Madsen, Penny Pettyjohn, Julie Carlson, Mary San-Carter, Cherrie Carr, Tim Neal, Chris Kroll, Tom Wright, Gary DuBois, Donna Fenton, Nancy Cornell, Irene Renaud, Jack Welch, Walt Fallon, David Johnson, Linda Durga, Gary Russell and Mrs. Dan Babbitt, and they wish to thank Mrs. Joseph Stripe, our Spanish teacher, and Mrs. Dan Babbitt for a wonderful evening. Also Rev. Doty for showing us his slides, which with his comments were extremely interesting. Senora Babbitt would like to extend her appreciation to the parents for having such a fine group of chicks.

Grayling School Board Attends Conference

Superintendent of Grayling Schools Joseph Stripe and School Board members Jerome Kessler, LeRoy Millikin, Bill Joseph, James Baker and Eva Strong attended the Northern Michigan Conference for School Board Members and Administrators at Gaylord High School on Thursday, December 1st.

The general session began in the library at 4 o'clock with Julius Barbour, Frank Zetter, Max Cochran and Mrs. Helen Field presiding.

Those attending broke up into discussion groups, dealing with four subjects: A, "Relationships with Teaching Staff," B, Bonds, Budgets, Buses, Buildings, and Bologna," C, "First Year Board Members," and D, "Written Policies and Minutes." Out of these discussion groups questions arose which were answered in part by those presiding. This was followed by a 6 o'clock dinner served by F.H.A. members under the direction of Mrs. Evelyn Madsen.

reaction of Mrs. Evelyn Madsen. Another general meeting at 7:45 in the library concluded the conference.

On the Grayling group's return, in taking Mrs. Strong home on M-72 West, six deer dashed across the road in front of the car.

Systems And Race Horses . . .

There never was an economy in history that didn't have its ups and downs. Neither a system nor a race horse can run indefinitely at all-out speed. It is easy to emphasize the periodic downs that occur in our economy, and to minimize the ups. The result of that is to paint a false and deceptive picture.

Over a span of time this country has registered an amazing amount of material progress. Some little time ago Senator Goldwater presented a group of "demonstrable truths"—and they are truths that have nothing to do with partisan politics, or with the party labels of people in high office.

He reports that in 1952 our gross national product was \$347 billion—this year it will be some \$505 billion. In the same period almost 8 million more Americans have been gainfully employed and the average weekly wage has risen from \$67.97 to \$91.20. In 1952 we had \$85 billion on deposit in various kinds of banking institutions—in 1959 the figure was \$157.8 billion.

So it goes—with striking progress in all manner of diverse fields—hospital insurance, life insurance, school room construction and the output of goods and services of every conceivable kind.

Endless other statistics could be added. To take the most important of all, capital expenditures by industry almost doubled between 1950 and 1960—rising from \$20,605,000,000 to \$37,868,000,000. It is capital spending that determines the ability of industry to produce, to employ and to serve us with all the necessities and luxuries we need and want.

The ups far outweigh the downs in this country and will continue to do so as long as private citizens retain the initiative and their freedom under representative government.

Exploding Your Pocketbook . . .

Once federal subsidies start, they don't just grow—they explode.

That statement comes from the Chamber of Commerce of the United States. As an example, it uses federal subsidies for local housing projects.

In 1950, through subsidies, the federal taxpayers footed one-quarter of the payments on bonds for the projects. Last year, they paid nine-tenths of the bond payments—payments which include both principal and interest.

The result: In 1950 the program cost a mere \$5.7 million—last year it cost \$131 million.

What's more, we apparently haven't seen anything

THE CHRISTMAS TREE

yet. The federal government is committed to subsidize housing for as far in the future as the year 2,000. The Chamber says that the ultimate cost of the program will run from \$6.5 billion to \$7.5 billion—and, if anything, this estimate is conservative.

An exploding welfare state explodes your pocketbook with it—leaving it tattered and empty.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

December 9, 1937

The Crawford County Grange held its installation last Friday night, at which time the newly elected officers were duly installed, as follows: Master, Hugo Schreiber; Overseer, Richard Babbitt; Steward, Elmer Ostrander; Assistant Steward, Charles Corwin; Chaplain, Euphemia Corwin; Treasurer, William J. Woodburn; Secretary, Bertha Williams; Gatekeeper, Carvah Corwin; Ceres, Carrie Feldhaus; Pomona, Henrietta Love; Flora, Elizabeth Serven; Lady Assistant Steward, Pearl Babbitt. Mr. G. F. DeLa-Mater of Grayling, deputy state master, was the installing officer. Following installation a social evening was enjoyed, when cards were played. For luncheon, Mrs. George Annis and Mel Enyart held high scores and George Annis the consolation score. For pinhead, Mrs. Neal and John Knecht were high, with Mrs. Williams and Charles Corwin holding low scores. Chris King and Mrs. Neal Mathews were high scorers for pinhead and Neal Mathews and Mrs. Harold Skingley were low.

Miss Ina Conboy was guest of honor at a delightful miscellaneous shower given Tuesday evening at Shoppemans Inn dining room. Miss Eleanor Tumath, Margaret Douglas and Frances Stevens were the hostesses and there were 24 guests. Various contests were enjoyed, and a dainty two-course lunch served. Miss Conboy, whose home is in Cheboygan, has taught in Grayling for the past three years and during that time has made many friends. She will become the bride of Mr. Lloyd Pickett of Alpena sometime during the holidays.

Grayling and Alpena tangled Tuesday night in a basketball game upon the court of the Thunderbolts from the shores of the big lake, and after four periods of fast action, the boys from Grayling were forced to take the short end of a 17 to 20 score. The game was a good one however, and the local tossers gave a fine account of themselves by playing their best basketball of the season, and giving real promise of future action. Last Friday night the Grayling High School team lost to Harbor Springs by a margin of six points, the difference between 26 and 20. The Green and White

reserve team won their game, however, leveling the Harbor reservists by a score of 25 to 19, so it was an even break for the evening.

In announcing the names of the newly elected officers of the Kiwanis club Roy Milnes was mentioned as secretary-elect. This should have been Roy Trudgeon instead.

Waldo O. Hildebrand, of Saginaw, who owns a summer home at Lake Margrethe and with his family spends the summers there, has been appointed field secretary of the Michigan Association of Insurance Agents. His headquarters will be established in Lansing.

There was a real fall of "beautiful" Sunday marking the first honest-to-goodness snow fall of the winter and it has continued to snow some each day since. The temperature today is somewhat lower, registering 10 degrees above zero at 6 o'clock this morning, according to the government thermometer at the Fish Hatchery.

Mrs. R. D. Connine entertained a few guests at luncheon on Thursday last, in honor of Mrs. M. A. Bates, who is leaving Grayling for the winter.

It's sure a cure for sore eyes to see the fast change being made in the court room at the Court-house. The ceiling and walls are being redecorated, the woodwork is to be revarnished, there are new floor coverings and there are to be new electrical fixtures in the court room, hall and the prosecuting attorney's office. It is 14 years since the court room was last treated to new ceiling and wall coatings, so it is very much in need of it. Claude Cardinal and Joe Fournier are doing the work and are doing a nice job.

Mr. and Mrs. Fred Jones and little son Bobby of Lansing are visiting Mrs. Jones' parents, Mr. and Mrs. Carl Sorenson. Monday morning saw the patron of the local post office getting their mail at the new post office building. A sign on the old office read "Moved one block east." Many had already secured keys to their mail boxes while others had to get them upon their arrival and to learn the number

of their respective boxes. F. J. Mills, our local jeweler, was the first one to get his mail at the new place. Postmaster McDonnell says that the first day proved to be the biggest day, as far as money receipts are concerned, they had had in a long time. "It was just like the Christmas rush," said Clerk Farnum Matson.

Dr. and Mrs. C. R. Keyport and daughter Jayne left Saturday for New York City—to be gone this week.

Charles Lennon returned this morning to his home in Hurley, Wis., after having visited at the home of his aunt, Mrs. Emil Kraus since July.

Mr. and Mrs. Emil Giegling and daughter Emily left today for Bay City, from where Mr. Giegling will leave for Chicago and the latter and Emily will go on to Detroit for the weekend.

Miss Margaret Fyvie returned to her duties at the Grayling South Side school Monday, after having been absent since Thanksgiving due to the illness of her mother at McMillan.

Mr. and Mrs. Russell Robertson have moved into the N. Schlotz house on Spruce Street. This is one of two houses that Mr. Schlotz has had remodeled from the old Insley house that he had moved back on his lot, he having sold the property on Peninsular Avenue to the Post Office department where the new building now stands.

Mrs. Nettie Stephan and Mrs.

Ted Stephan made a trip to Potosky Monday.

Sheriff Frank Bennett and Clarence Gross were in Ann Arbor Monday on business.

Mr. and Mrs. Lloyd Perry had as their guest last week at Uncle Tom's Cabins on the river, Capt. O. T. Schanbrite of Detroit.

Mr. W. Hanson and sister, Mrs. Margrethe Graham left Tuesday for Chicago on their way to spend the winter in the south.

Mr. and Mrs. Alvin Richter and family of Maple Forest were callers at Traverse City to see their new grandson, Gary Bruce, born to Mr. and Mrs. Henry Switzer (Alvina Richter) November 20th. Mother and baby are doing well.

Now from Pillsbury!

A NEW Flour with better-balanced protein! Makes perfect bread and great cakes, too!

Whiter! Lighter! Finer texture!
This different flour, milled a different way, gives bread texture like angel food cake. Reason: more of the flour particles have precious protein. The Pillsbury loaf (left) was the different.

Bread dough handles nicer!
Both doughs above have been kneaded equally: new Pillsbury Flour dough (left) already cleans board, isn't sticky. It's easy to work with! This means a shorter kneading time is required!

Higher cake than bread flour ever made yet!
Never before could so perfect a bread flour do so well with a cake! Cake made with new Pillsbury Flour has real volume, high, light and fine. And only Pillsbury mills this new flour!

Strong dough! Won't mushroom!
Dough made with ordinary flour sometimes mushrooms. But it won't happen with the new Pillsbury Flour. This dough firms up, stands up in the pan, in the oven. Better-balanced protein!

Letters To The Editor

November 27, 1960

Mr. Editor and Readers:

Anyone having read the last two or three letters in your paper may begin to wonder why they are being subjected to this type of public display in print.

The reason for this is to bring to the attention of all interested parties, the disinterest of the people, including the local merchants, in the most beneficial efforts of the Sportsmen's Club. While apparently there are those who believe that the local merchants' responsibility ends with "permitting" the club to place canisters for donations in their place of business, and purchasing a little ad space in a paper, there are those who know better.

No one, but no one, benefits more from a good active club in a community than the merchants! No one should apologize for pointing out this fact, and their

shortcomings, on this score. If, for one, do not, as nothing untrue has appeared in print, nor has been implied.

Whatever has become of freedom of speech? Most persons do not want to hear the truth. They prefer hearing what they WANT to hear.

To return to the Sportsmen's Club situation — Up to now, anyone could become a member of this club by plunking down five bucks. This club needs a policy of screening its members upon application for such membership. This would be a bigger and better active club under this system.

Further, meetings of this organization have not been conducted as such. Most have not even been at a meeting. This, of course, is also detrimental to the dignity of any club, and without dignity as a community organization, no club can grow. I believe that should some people of the past re-appear on the scene, knowing that rugged individualism used to be an American trait, they would at once grasp the fact that although now-a-days we give lip service to freedom of speech we retain the mental reservation of, "as long as you go easy, and don't tread on anyone's toes." Certainly no one can help but know that the club needs, and appreciates, the small support of the merchants up to now.

Now let's look on the other side of the ledger! Some of the merchants have stepped forward and cooperated as they should, others are standing off, reaping monetary benefits of the sportsmen who are enticed into the area by the Club and affiliates, and do nothing.

Wholehearted participation is no trouble, and this club will be one of the best in the north.

This in turn will further the interests financially of these same merchants.

It seems stupid to me that this fact has not been realized before this time.

Any further comments?
